

COSSACKS DRIVEN OFF

Official Report From Tokio War Office.

OFFICERS CAPTURED

BELIEVED THEY WERE RECON-NOITERING FROM VLADIVOSTOK.

Japs Take Charge of Russian Steamer Kazan - Little News From Fighting Fields.

Special Telegram to The Star.

TOKYO, May 22.—The war department publishes today a report that the Russian attacks, in connection with their reconnaissance operations were continued on Saturday, chiefly in the Chang-Tu district. The appearance of two Russian troops, one of the Liao river, thirteen miles south-west of Pukumen, is regarded as noteworthy, as it indicates that they must have made a detour around the Japanese extreme left. An official bulletin reports that the Cossacks have been driven still further to the southwest in disorder, leaving 200 killed and wounded upon the field.

It is reported that a junk filled with Russian officers has been captured. It is presumed that they were making a reconnaissance from Vladivostok.

Take Charge of Ships.

CHITTOO, May 22.—Travelers arriving from Port Arthur say that a Japanese armed force of 100 men boarded the Russian steamer Kazan on Saturday in Port Arthur harbor on receipt of a dispatch from Tokyo announcing that the Japanese government had decided to retain her as a prize on the ground that she is a war vessel. The Russians used the Kazan as a hospital ship during the siege.

The last of the Russian wounded at Port Arthur will leave there tomorrow. Entrance off Lunga, the superintendent of the Russian Red Cross at Port Arthur, will depart from there today.

The next party of Russians to leave Port Arthur for Chittoo will include forty insane soldiers and soldiers, who will be taken on board the Russian steamer Whampoa, now here. The Whampoa has been fitted up especially to transport the lunatics from Chittoo to Japan. She will not take any other passengers.

Sighted a Transport.

Special Telegram to The Star.

HONG KONG, May 22.—A vessel which arrived today was a Russian volunteer cruiser on May 20, with a deeply laden transport, in Hainan strait, which lies between the northern coast of the island of Hainan and the mainland of China. The ships were going west.

Russian Colliers' Movements.

PARIS, May 22.—The reports in circulation here that colliers belonging to the Russian fleet intend to rendezvous at the Babayan Islands, north of the island of Luzon, Philippine Islands, are not based on precise information, but are the results of figuring on the latitude and longitude where a portion of the fleet was last observed. This, of course, if continued, it is pointed out, would lead the British into the Hainan strait, where the Babayan Islands are situated. It is therefore inferred that the Russians will rendezvous in that locality for the purpose of coaling.

CONDITIONS UNCHANGED.

Small Skirmishes Reported From Tokyo Official Sources.

TOKYO, May 22.—Imperial army headquarters made the following announcement today:

"In the direction of Changtu on May 20 a force of the enemy consisting of over a battalion of infantry, a regiment of cavalry and two guns, made a detour to the eastern height at Sintoakou, eight miles east of Changtu, from the vicinity of a coal mine (two miles east of Changtu, at 11:30 o'clock in the morning, commenced a bombardment.

"Subsequently another Russian force with four guns appeared on the northern height of Changtu, and at 1:30 p.m. the battle of the enemy advanced from the eastern side of the village, but were repulsed.

"Another mixed force of the enemy entered Kishinipaku, where it set fire to the village and retreated.

"A body of the enemy's cavalry dismounted and attacked the village on the right bank of the Liao river, thirteen miles southwest of Pukumen, on the morning of May 20. After an engagement lasting two hours the enemy retreated in disorder, leaving 300 men killed and wounded.

"Except these collisions between small forces, the situation is otherwise unchanged."

Inspected Annamese Coast.

SAIGON, French Cochinchina, May 22.—Admiral de Jonquieres, the French naval commander, returned here today, after an inspection of the Annamese coast. He reports that no belligerent ships have returned to French territorial waters since May 14.

RESULTS OF THE WAR

DIPLOMACY ONE OF THE THINGS MOST LARGELY AFFECTED.

Correspondence of the Associated Press.

TOKYO, Thursday, April 27.—Count Okuma, former premier and minister of foreign affairs, in a recent interview on the question of intervention, said that a great change in the lines of diplomacy of different powers before a national Russia in the present war, it was difficult to make a prophecy. Increasingly closer relations between England and France was already one of the very significant phenomena resulting from the war. The count declared that Germany could have no other feeling than satisfaction at finding her northern rival coming gradually weakened by the war.

He would recognize the fact that Germany was causing a national Russia in the present war, it was difficult to make a prophecy. Increasingly closer relations between England and France was already one of the very significant phenomena resulting from the war. The count declared that Germany could have no other feeling than satisfaction at finding her northern rival coming gradually weakened by the war.

POLICE CHIEFS' CONVENTION.

D. C.: "GENTLEMEN, I SURRENDER."

CUT, DRIED AND READY

Plans for Ohio State Convention of Little Interest

Gov. Herrick and Senator Dick Will Have Control. Ticket That Will Be Nominated—Dick Has the Platform Ready for Delivery.

WASHINGTON, May 22.—The plans for the Ohio state convention, which will be held at Columbus, Ohio, May 22.—It is significant of how thoroughly the result of the republican state convention which meets here Wednesday has been discounted that there is scarcely a reference to it in this morning's newspapers of the state. One of the most uneventful conventions in the history of the party is promised. It is probable that not a ballot will be taken in the convention, certainly not on the nomination of any candidate. All that will be done by acclamation. Gov. Herrick and Senator Dick will have easy control of the convention, but the unanimity of the convention will not be due wholly to their management of the state republican machine built up by the late Senator Hanna, to which they have succeeded.

It happens that every office for which nominations are to be made this year is now held by a republican who is serving his first term now and is entitled to nomination for a second term. But for the fact that Lieut. Gov. W. C. Harding refused to be a candidate for nomination for a second term, every one would be placed on the ticket again.

Lieut. Gov. Harding's refusal to accept another term precipitated an embarrassing situation, for the reason that no less than a dozen aspirants entered the field. Two weeks ago an agreement among the leaders was effected by which Gen. Andrew L. Harris of Eaton was "slated" as the candidate for lieutenant governor. All the other candidates at once withdrew, excepting only S. B. Taylor of Jefferson county, who announced that he would "speak" to the state makers' and appeal to the convention. This prospect of a little skirmish in the convention vanished this morning, however, when Mr. Taylor announced his withdrawal.

For treasurer of state, W. S. McKinnon of Ashtabula. For member of the state board of public works, William Kirtley, jr., of Defiance. Senator Dick will bring down with him a standard bearer document. It is reported that Gen. Grosvenor will propose a plank somewhat critical of the canal commission in its proposition to purchase supplies abroad if it can buy cheaper, but it is probable that no such radical step will be taken.

Senator Foraker will be here, and will address the convention, but no attempt to embarrass the governor and his friends is likely to be made by the presentation of a resolution endorsing Senator Foraker's candidacy at this time.

There will be a number of delegates to the convention who criticize Gov. Herrick for his action on the Brannock local option bill, but no such statement will be voiced in the convention. Four-fifths of the delegates will be pledged to support of the governor.

NO CHANGE IN POLICY.

Proposed Purchases for Construction of the Panama Canal. The following statement was given out at Secretary Taft's office yesterday afternoon: "No little amusement has been created in the administration at Washington and among its friends over the attempt to

discredit the facts about the Panama purchases, and especially in the attempt to show that under pressure there has been an alteration in policy. Ever since Secretary Taft and the Panama commission, with the President's approval, announced their intention there has not been the slightest change, and all statements to the contrary have no foundation whatever."

BRITISH STEAMER OVERDUE.

Fears at Boston for Fate of the Vessel. Special Dispatch to The Star. BOSTON, May 22.—The British steamer Gorsemore, from Antwerp, is long overdue, and it is feared that she may have met with some mishap.

The steamer sailed from Antwerp twenty-three days ago, and should have arrived here on Tuesday last week.

Continuous boisterous weather may be responsible for her delay, and she may report unharmed.

She has a large and valuable cargo of glass and crockery, machinery and general freight.

"She is one of the Johnson line of steamers and is running under charter in the service of the Puritan line."

TERRITORY CORPORATIONS.

Adverse Decision Rendered by Judge of Circuit Court. MUSKOGEE, I. T., May 22.—Judge Raymond, in the court of the western district, has rendered a decision which will affect nearly every foreign corporation doing business in Indian Territory. The case is that of the T. H. Rogers Lumber Company, which had brought suit against A. S. McKee to collect for material furnished by the company to build a house for the defendant. The attorney for the defendant raised the point that the company is a foreign corporation and had no one at South Muskogee to represent it, as required by law.

Judge Raymond sustained the point and dismissed the suit.

Under the Arkansas law, which governs Indian Territory, a foreign corporation which wishes to do business in Indian Territory must have a representative in the town where the incorporation papers were filed and upon whom service may be had. If the corporation fails to do this, all its contracts are void in case suits are brought upon them.

SHAW AT SUNDAY SCHOOL.

Addressed Scholars at Cleveland, Ohio, Yesterday. CLEVELAND, Ohio, May 22.—Secretary of the Treasury Leslie M. Shaw spoke at the Sunday school of the First Methodist Church here yesterday and said that he wanted the members of the Sunday school to know that he and many other men in public life at Washington are church members and Christians. He said there is a notion in some quarters that Washington officials do not pay much attention to religious matters, but he said that this is not the case. He also told the members of the church that he had been a Sunday school teacher for twenty years. He said that Christ was sacrificed at the demand of public opinion. He said that it does not always follow that the voice of the people is the voice of God.

Secretary Shaw left at 5 o'clock yesterday afternoon for the Big Four for St. Louis, en route for Oklahoma City, where he will address a tri-state convention of the Y. M. C. A.

BRITISH PASSPORTS.

Government Takes Up Question of the Bogus Ones. Special Telegram to The Star. LONDON, May 22.—The government has taken up the matter of the furnishing of false English passports, which have been used by revolutionists to gain access to Russia.

The man who was killed in the Hotel Bristol, St. Petersburg, March 15, by the accidental explosion of a bomb he had with him had one of these passports. His death led to the discovery of a conspiracy to furnish false passports.

It is understood that an actor and a journalist are among those whom the treasury will prosecute.

STEEL PLANT STRIKE.

Sharon, Pa., Concerned Forced to Stop Work. Special Dispatch to The Star. SHARON, Pa., May 22.—The Sharon plant of the Carnegie Steel Company, with the exception of the blast furnace, was closed down today because of a strike and 600 men are idle. The strike was precipitated by the men operating the electric cranes. They have been receiving \$2.15 a day and made a demand for an increase to 20 cents an hour for a twelve-hour day, which is equivalent to a 10 per cent increase. The company refused to grant the demand and the crane men walked out. The skelp and other finishing mills were ordered closed and a prolonged strike is looked for.

An official of the company stated that the men are being paid the same rate of wages as crane men in the other works and the demand will never be acceded to. The Sharon plant is in charge of A. A. Corey, brother of E. A. Corey, president of the United States Steel Corporation.

REAR-END COLLISION.

Twelve Injured on New York Elevated Railroad. Special Dispatch to The Star. NEW YORK, May 22.—Twelve persons were injured shortly after noon today in a rear end collision on the third avenue elevated railroad between 133d and 134th streets. A south-bound train was waiting for the closing of the draw over the Harlem river, when the second train came rapidly around a curve, struck it, and the cars were nearly thrown from the structure by the force of the impact. Ambulances were called from nearby hospitals.

JUDGE PARKER TO RESCUE.

Prompt Aid Given His Little Granddaughter. Special Dispatch to The Star. PORTHKEEPSIE, N. Y., May 22.—If little Mary Hall is not compelled to go through life with a mutilated hand it will be because of the promptness and skill of her grandfather, Judge Alton B. Parker, Mary Hall, while playing in a swing on the lawn at Rosemont, caught her hand between the upright and the chair support. The third finger was crushed and hung by a shred.

Judge Parker skillfully replaced the finger and applied the Rev. Charles Mercey Hall, the child's father, to have a physician meet him at Kingston. He carried the girl to the Esopus station. Still resting in his arms, the child made the journey to Kingston. Dr. Norwood, with Dr. George DeForest Smith of New York, in consultation, dressed the wound. The physicians agreed that Judge Parker's prompt aid to the injured child had greatly increased the chances of saving the finger.

LABOR AGAINST KING.

Demonstration in Paris When Alfonso of Spain Arrives. PARIS, May 22.—The Confederation of Labor Unions has called a meeting for Wednesday to discuss a proposition to make a demonstration against King Alfonso when he comes to Paris.

The revolutionary element seeks to make an offensive manifestation against the king and inflammatory circulars are being spread broadcast calling on the workmen to oppose his majesty's visit. In the same manner as the Italian radicals opposed the visit of Emperor Nicholas to Italy.

NOT WORRIED ABOUT DEFICIT.

So Says Secretary Shaw While in St. Louis. ST. LOUIS, Mo., May 22.—Secretary of the Treasury Shaw arrived today on his way to Ardmore, I. T., where he is to address the Y. M. C. A. next Wednesday. Before leaving here he was asked about the \$35,000,000 deficit in the United States treasury. He said:

"We are not worried about that deficit. Just as has always been the case, the deficit will be reduced in June, when business picks up."

"It is hard to determine just what causes are responsible for this deficit, though we know our imports of dutiable goods have been less and of nondutiable goods have been greater."

DROWNING ACCIDENT.

Wagon Overturns in Stream, Causing Seven Deaths. Special Dispatch to The Star. ROSWELL, N. M., May 22.—M. W. Lurry, a prominent contractor of Roswell, who was on his way to Lincoln on a pleasure trip, in crossing the Rio Grande river west of Roswell yesterday afternoon, was killed and seven children were drowned. The family were riding, resulting in the drowning of his wife and six children.

STRONGHOLD DEMOLISHED.

Pulujanes Overcome on Island of Samar. Special Telegram to The Star. MANILA, May 22.—A force of constabulary, though outnumbered, have demolished a stronghold of Pulujanes on the island of Samar. Col. Wallace Taylor of the constabulary was severely wounded. One man was killed and several wounded. Capt. Jones' company of the 6th Infantry and two companies of the 21st Infantry, Gov. George Curry, with seventy-five riflemen, and two succorons are on their way to the assistance of Col. Taylor's detachment.

Steel Mill to Resume Work.

PITTSBURGH, Pa., May 22.—The furnaces of the Moorehead Brothers' steel mills at Sharpsburg were lighted today preparatory to resuming work in full tomorrow. About five hundred men are affected.

Slain by Unknown Man.

SAVANNAH, Ills., May 22.—D. S. Berry was shot and killed at the door of his office here today. There is no clue to the slayer or to the motive for shooting Mr. Berry.

Excessive Medical Claim.

CHICAGO, May 22.—A claim for \$100,000 for medical services by Dr. L. C. H. E. Zeigler of Chicago, against the estate of Harriet McVicker, widow of the well-known theatrical manager, was disallowed today by Judge C. S. Cutting of the probate court.

Judge Cutting held that the claim was excessive. He instructed Dr. Zeigler to present another claim of more moderate proportions. A claim for \$10,000 under a contract exhibited in court was allowed.

Death of Confederate Chaplain.

LEXINGTON, Ky., May 22.—Rev. Ben Bigstaff, former chaplain of the Confederate Home at Peebles Valley, Ky., died here today of apoplexy, aged sixty-five years. Rev. Mr. Bigstaff was with Gen. John Morgan in all his campaigns. After the war he became a preacher. He resigned as chaplain at the Confederate Home and returned to the mountain people to preach. He was known all over the south.

King Alfonso's Tour.

Special Telegram to The Star. MADRID, May 22.—It is settled that King Alfonso will leave upon his visit to France and England on May 23.

HOW CAN I GET WORK?

Read the Wanted Help ads in The Star and go for the best place.

WIDE SCOPE OF STRIKE

Spreading Began Promptly This Morning.

INCENDIARY FIRE

ATTRIBUTED TO MEN THAT ARE NOW OUT OF WORK.

Mayor Dunne Talks to Governor About Troops—Soldiers Are Available.

CHICAGO, May 22.—The teamsters' strike spread today, a number of drivers for lumber firms stopping work because they had received orders to make deliveries to the boycotted houses. President Shea had said that the strike would not extend except upon the insistence of employers to make such deliveries. It is feared that other industries will be involved, though negotiations for peace are still under way.

President Shea called on Levy Mayer, attorney of the Employers' Association, and it is understood that at his suggestion the teamsters' joint council is to be increased to seven members so as to include President Shea. The council is to meet Mr. Mayer tonight.

Mayor Dunne had a talk with Gov. Deussen over the long-distance telephone, and the governor assured him that the militia would be ordered out when called for. Their presence, according to the mayor, will not be required on account of rioting, but in the event of the spread of the strike involving other industries.

Chief of Police O'Neill added 200 policemen today to the special force, and Sheriff Barrett swore in a number of additional deputies.

Spreading Began Promptly.

CHICAGO, May 22.—Spreading of the teamsters' strike began promptly today. Thirty-six teamsters employed by the Rittenhouse & Embree Company, lumber dealers, and four by Edward Hines' Lumber Company were the first to be forced into the struggle following the refusal of the teamsters' joint council to endorse the settlement provisionally arranged with the employers by President C. P. Shea of the strike.

Through the threatened spread of the strike to all lumber dealers every branch of the building industry in Chicago was today apparently facing paralysis. There are only 800 teamsters employed by lumber firms, but so close are the relations between the building industry and the teamsters that the refusal of the teamsters to work would lead to strikes in nearly every department of the building industry. Indirectly dependent upon the building material teamsters, it was estimated today, hung the employment of nearly 10,000 men in yards, to take the ground on construction work. It was not believed the drivers' strike would affect the wood industry, the recent refusal of men engaged in hauling building material for the walkout of the lumber teamsters, it was said, would doubtless lead to strikes in nearly every department of the building industry. Indirectly dependent upon the building material teamsters, it was estimated today, hung the employment of nearly 10,000 men in yards, to take the ground on construction work.
